

# Notes for project:

Client: Former Refugee Steering Group. (information on the group is available through their fb page [https://www.facebook.com/dunedinrefugees/?ref=br\\_rs](https://www.facebook.com/dunedinrefugees/?ref=br_rs)) <-- might not be this group.

What do they want?

A proposal for GigCity funding.

What for?

A form of technology solution that is more than just a website (it can be one, just be more than a basic website) to assist former refugees.

Requirements of the proposal:

1. A centralized information space
2. Able to educate hosts on the refugees.
3. Information for the migrant support groups/charities
4. Information for the migrants themselves.
5. Knowledge on the length of the proposal
  - a. This means the runtime of your chosen solution; how long it will run for?

THIS IS DUE AT THE END OF SEMESTER: FINISHED AND POLISHED

GigCity funding questions

1. Project Title
2. Start/End date
3. Project Objectives
4. Details on key milestones including timeframes
5. Describe how the project addresses GigCity Community fund criteria
6. Budget Layout
7. Are any Permits or consents needed before project start?

The output is a proposal in formal report format including:

1. Answers to GigCity funding questions
2. Presentation of proposal in class
